Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed July 13, 2001, Applicants respectfully request entry of the following amendment and reconsideration based on the following remarks:

In the Specification: /

Please replace page 17 with the attached substitute page.

In the Claims:

- B¹
111. (Amended) A method for accessor invoked software to allow the electronic delivery of information over a network between at least one accessee having at least one accessee computer (NCD) connected to the network, at least one accessor having at least one accessor computer connected to the network, and at least one information server connected to the network, wherein the method comprises:
